THE NONPROFIT TRUST

The Nonprofit Trust is a member-owned unemployment insurance administrator for 501(c)(3) nonprofit organizations.

Under 501(c)(3) regulations, nonprofits can elect to reimburse the state for their own unemployment claims. This self-pay option is almost always less costly than paying standard unemployment taxes, freeing up valuable funds for organizations' programs and services.

THE NONPROFIT TRUST HAS THE RESOURCES AND EXPERTISE TO HELP YOU GET THE MOST FROM THE REIMBURSING OPTION AVAILABLE TO 501(C)(3) ORGANIZATIONS.

PAY ONLY FOR CLAIMS YOUR ORGANIZATION GENERATES

State unemployment departments charge nonprofits the same rates every other employer pays, even though the claims nonprofits generate tend to be much lower than average.

By choosing the reimbursement option, your nonprofit can pay only for the claims you generate, saving 40-50 percent per year on average.

You Control Your Own Funds

Your funds go into an interest-bearing reserve account—which you own and control—instead of your state unemployment fund. The state sends us quarterly invoices for actual claims, which are then paid out of your account.

Fewer Demands On Your Staff

We manage the entire process, so you can concentrate on fulfilling your organization's mission. Plus, we audit every claim to prevent costly mistakes, represent you in disputes, provide expert advice, and much more.

A COST-EFFECTIVE ALTERNATIVE

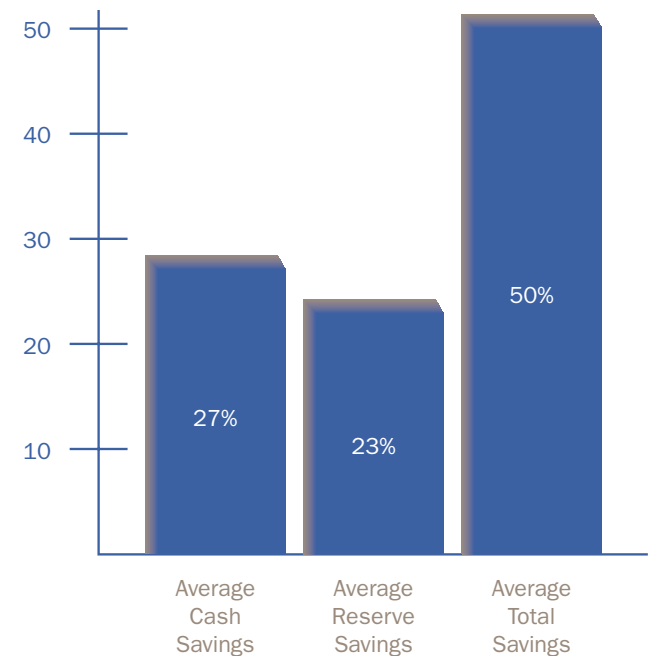

The reimbursing option has been available to nonprofit organizations since 1972. The Nonprofit Trust has provided the nonprofit community with a secure, cost-effective alternative to state unemployment insurance.

Our experts will show you how to stop wasting valuable funds on state unemployment insurance payments so you can focus on programs and services that benefit your clients and community.

We work only for 501(c)(3) nonprofits, and we're member-owned, which means we answer directly to our nonprofit member organizations.
